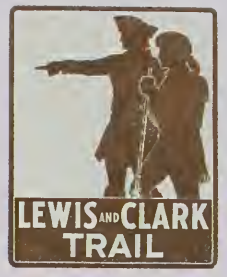
Lewis and Clark Trail

Relive the drama of the nation's westward expansion by retracing the route of the Lewis and Clark Expedition through Montana. In just over 28 months–from May 1804 to September 1806–co-commanders Meriwether Lewis and William Clark traveled more than 8,000 miles on foot, on horseback and by boat. Well over a quarter of that distance was spent in Montana where much of the land they explored remains unchanged. Searching for a water route to the Pacific Ocean, they pushed against powerful rivers, across boundless plains, through dense forests and over massive mountain ranges. They charted a vast, new territory and made tremendous contributions to a young nation's knowledge of its western geography, resources and native inhabitants.

One of the best ways to retrace the expedition is by traveling with one of the condensed versions of the Lewis and Clark Journals, which reveal a treasure of knowledge about the deeds of these famous explorers and the land they explored. Follow the Lewis and Clark Trail in Montana along portions of U.S. Highways 2, 12, 87, 89 and 93, State Highways 21, 41, 43, 200, 278, 324 and 434 and Interstate Highways 15, 90 and 94. The highways as well as the state highway map are marked with rectangular signs showing the figures of Lewis and Clark. Among the sites that are readily accessible from these highways are: heroic-size statues and interpretive sites in both Fort Benton **(2)** and Great Falls **(3)**; Giant Springs Heritage State Park in Great Falls **(3)**, where Clark discovered a huge "fountain or spring" during an 18-mile portage around the Great Falls of the Missouri; the Gates of the Mountains **(4)**, north of Helena on I-15, where the Missouri flows through a narrow passage flanked by what Lewis described as "the most remarkable clifts that we have yet seen."; Missouri Headwaters State Park **(5)**, near Three Forks, where the Jefferson, Madison and Gallatin rivers join to form the Missouri; Beaverhead Rock State Monument **(6)**, north of Dillon on Hwy 41, an important landmark; Lemhi Pass **(7)**, west of Hwy 324 in extreme southwestern Montana, where Lewis and Clark crossed the Continental Divide on their westward journey; Travelers Rest **(8)**, near the junction of U.S. 12 and 93 south of Missoula, where the expedition split into two parties on the return trip east; Lolo Hot Springs **(9)**, on U.S. 12 southwest of Missoula, where the expedition camped and bathed; Lolo Pass Visitor Center **(10)**, on U.S. 12 at the Montana/Idaho border, which has a Lewis and Clark interpretive site; and Pompeys Pillar **(11)**, off I-94 east of Billings, where Clark carved his signature in a large rock along the Yellowstone River. Commercial boat tours retrace the route of Lewis and Clark on the Missouri River at the Gates of the Mountains **(4)**, north of Helena and in the White Cliffs area of the Wild and Scenic Missouri River **(1)**, below Fort Benton.



Although not officially marked, the following areas provide some interesting insights about the expedition. **(A)** On the border of Montana/North Dakota, at Fort Union, is the April 27, 1805, campsite of the westbound Lewis and Clark Expedition. The next four months of the journey would be within the border of present Montana. **(B)** Just south of Culbertson, the expedition killed their first grizzly bear. **(C)** On May 8, 1805, Lewis and Clark reached Milk River, the largest and most important tributary of the Missouri. They believed it would offer a practical water route to the Canadian fur trade.

The National Park Service has published an excellent interpretive map of the Lewis and Clark Trail, which can be obtained from Travel Montana, 1424 9th Ave., Helena, MT 59620, (406) 444-2654 (in Montana) or 1-800-541-1447 (outside). "The Explorers at the Portage," an interpretive map of the expedition's portage route around the Great Falls of the Missouri, is available from the Great Falls Chamber of Commerce, P.O. Box 2127, Great Falls, MT 59403. For more information about the Expedition, write the Lewis and Clark Trail Heritage Foundation, Inc., P.O. Box 3434, Great Falls, MT 59403.

Brochures are also available from the USDA Forest Service, Northern Region, P.O. Box 7669, Missoula, MT 59807.
